

Callie Moriarty (Youth) Honorable Mention, Untitled:

I Learned from the Pandemic that if someone is hurt or sick you should help them even if they are different than you. you can do service or do a good thing for a person who has a sign in their yard or if they don't. or if they like masks or if they don't. You can love them no matter what if they are not the same as you. one day I went to help an old lady and even though I did not want to go and felt happy.
